
A3/A5 omitted only from display: same negatives as H1; the canonical matrix includes all17 retrievable versions.
* H4=train532; A7=repository5250 (paper mapping unresolved); A12=available null200. H6=complete629.
B1 combines benchmark661 + external5. 0=observed no exact overlap for displayed sets; diagonal omitted.
Unknown full-model relations are not zero. A7 author-documented X padding removed; same sequence need not imply same source or assay.
